

# Jorge Antonio García Ortiz

Software developer · Web, mobile and backend

Panama City, Panama · +507 6934 0918 · [jgartiz@outlook.com](mailto:jgartiz@outlook.com) · [jgartiz.tech](https://jgartiz.tech) · [linkedin.com/in/jgartiz](https://linkedin.com/in/jgartiz)

Over seven years building websites, mobile apps and the systems behind them, from the frontend through to production. Before that I ran operations for a decade, so I understand the business before writing code. Since late 2025 I build and run Galipán APP, published on iOS and Android.

## PROFESSIONAL EXPERIENCE

### Founder and lead developer

12/2025 – Present

**Galipán APP** · My own product · Remote

My own travel guide app for iOS and Android: I design it, build it and run it, along with the admin panel the team uses to publish content.

- Flutter app with a GPS map, search, offline favorites and content that updates without shipping a new version.
- Custom admin panel: the team creates new categories and content without touching code.
- Translated into ten languages, including Arabic with a right-to-left interface.

### Full Stack Web Developer & Digital Consultant

07/2017 – 07/2024

**Tú Gráfico / Freelancer** · Hybrid · Digital nomad

I built custom websites and apps for clients in the United States, Dominican Republic, Colombia and Venezuela, from frontend to production.

- Tourism platform for Galipán on iOS, Android and web with React Native, TypeScript, Node.js, maps and push notifications.
- Integrated payment gateways and subscriptions into eCommerce, real estate and import/export projects.
- Delivered every project with client training so they could run the platform without depending on me.

### Graphic Designer & Branding Consultant

07/2017 – 07/2024

**Tú Gráfico / Freelancer** · Digital nomad

I created the visual identity for more than 15 companies in hospitality, health, cosmetics, sport and international trade.

- Logo, palette, typography and their use across stationery, packaging, web and social, with a brand manual.
- Produced the campaign promo videos, from script to final edit.
- Trained in-house teams to keep the brand consistent without me.

## EDUCATION

### Software Engineering Specializations

**Academia X** · 12/2022 – Present

### Maestría en Nuevas Tecnologías (Master's in New Technologies)

**Instituto Universitario de Nuevas Tecnologías UNEWEB** · 05/2017 – 03/2019

### Business Administration Degree with a Specialization in Tourism

**Universidad Nueva Esparta** · 01/2007 – 01/2017

### Proficiency and Mastery in American English

**Colegio Venezolano Americano (Venezuelan American School)** · 01/1998 – 12/2003
